

Police and Crime Commissioner for Northumbria

Reserves Strategy Statement

31 March 2023

I. The Reserves Strategy

I.1 The Police and Crime Commissioner for Northumbria (the Commissioner) has a reserves strategy which is underpinned by the following key principles:

I.1.1 The Commissioner will maintain a General Reserve of a minimum of 2% of the net revenue budget to cover any major unforeseen expenditure or loss of funding. For budgetary purposes the Medium Term Financial Strategy (MTFS) 2023/24 to 2026/27 is based on a prudent General Reserve level maintained at or above 2.8% of the net revenue budget.

I.1.2 The Commissioner will maintain an Insurance Reserve of £3.0m to protect against potential liabilities and costs where no external insurance cover is arranged or available.

I.1.3 The Commissioner will maintain additional earmarked reserves for specific purposes only when appropriate, and which are consistent with achieving the objectives set within the term of the MTFS.

I.1.4 The Commissioner will not retain earmarked reserves which are unnecessarily high or for projects and programmes commencing beyond the four year medium term financial planning period.

I.1.5 Where appropriate the Commissioner will hold capital reserves which are necessary for and consistent with MTFS plans. Capital reserves will be applied to support operational plans, to deliver Police and Crime Plan objectives and in accordance with the Local Authorities (Capital Finance and Accounting) Regulations. The planned use of capital reserves will be reviewed and approved by the Commissioner on an annual basis as part of setting the Budget, Precept, Capital Strategy and Medium Term Financial Strategy.

I.2 The Commissioner's reserves strategy is reviewed twice yearly:

I. As part of the MTFS, precept and budget setting process.

II. In the Commissioner's Reserves Strategy Statement.

I.3 The Reserves Strategy Statement as at 31 March 2023 is based on the current MTFS 2023/24 to 2026/27. It includes an estimated reserves position as at 31 March 2023 and will be reviewed and updated each year alongside the MTFS.

2. Medium Term Reserves Forecast

2.1 The Commissioner must retain adequate reserves so that unexpected budget pressures can be met without adverse impact on the achievement of key objectives and council taxpayers. The Commissioner's policy for reserves and balances is based on a thorough understanding of the organisation's needs and risks. Part of this process is to give a clear explanation of the existing and proposed use of reserves, and this is summarised in the table at 2.2 with further detail provided for specific reserves in section 3.

2.2 The Commissioners MTFs 2023/24 to 2026/27 sets out the planned use of reserves over the medium-term period. Usable reserves estimated at £52.7m as at 31 March 2023 are forecast to reduce to £19.7m by 31 March 2027 under the MTFs, a reduction of £33.0m (63%). The Commissioners forecast usable reserve balances through to March 2027 are set out in the following table:

Reserves Forecast	March 2023 £m	March 2024 £m	March 2025 £m	March 2026 £m	March 2027 £m
General Reserve	10.6	10.6	10.6	10.6	10.6
Earmarked Reserves	28.9	18.7	10.8	10.0	9.1
Capital Reserves	13.2	5.1	2.1	0.2	-
Total Usable Reserves	52.7	34.4	23.5	20.8	19.7

2.3 The forecast General Reserve balance of £10.6m as at 31 March 2027 represents 2.8% of the net revenue budget under the Commissioner's MTFs. This meets one of the key MTFs principles to seek to maintain the General Reserve at a minimum of 2.0% of the net revenue budget has been met.

2.4 The MTFs sets out the planned use of reserves which are necessary to maintain investment in policing services and protect police budgets from the impact of significant inflation over the medium-term. Specific earmarked reserves have been established to manage inflationary risks including pay awards, support the transformational approach to the replacement of operational police systems and the national implementation of the Emergency Services Network (ESN).

2.5 The forecast balance of £9.1m earmarked reserves as at 31 March 2027 reflects the Pay Inflation Reserve £2.0m, the ESN Reserve £2.6m, the Workforce Management Reserve £1.3m, External Funding Reserve £0.2m and the Insurance Reserve of £3.0m.

2.6 Capital reserves comprise mainly the remainder of sale proceeds received in 2018/19 to 2020/21 for the disposal of the former headquarters site at Ponteland. As set out in the MTFs 2023/24 to 2026/27 those Capital Receipts will be used prudently across the MTFs period to manage overall capital investment and limit the impact on revenue budgets. Receipts will be applied mainly in 2023/24 to support the concentration of capital spend profiled in that year. The remainder will be applied in 2024/25 and 2025/26 to finance short-life assets. Total capital reserves are forecast to reduce to nil by March 2027. Further detail is provided in sections 3.17 and 3.18.

3. Reserves Position as at 31 March 2023

3.1 As at 31 March 2023 the Police and Crime Commissioner's usable reserves are estimated at £52.729m. The balance includes capital receipts of £12.800m, and a capital grant of £0.386m relating to the delivery of Emergency Services Network (ESN), and the remaining £39.543m represents the General Fund.

3.2 The General Fund is further divided into the General Reserve £10.563m, and Earmarked Reserves (sums set aside for a specific purpose) of £28.980m. The title of each of the Earmarked Reserves explains the purpose of that reserve and further detail is provided in the table at section 3.4. As set out within the MTFS key principles, the Commissioner maintains Earmarked Reserves for specific purposes only when appropriate and which are consistent with achieving objectives within the term of the MTFS.

3.3 Capital reserves will be fully utilised by March 2026 to fund the capital programme, under the capital financing plans set out in the Commissioners Capital Strategy 2023/24 to 2026/27 and the MTFS.

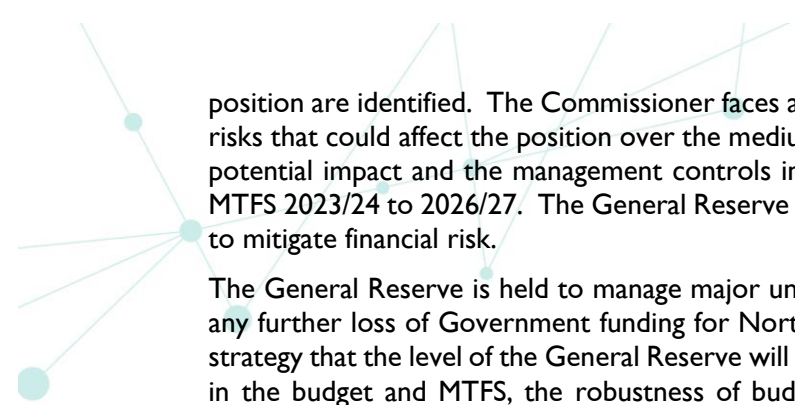

3.4 The estimated usable reserves held by the Police and Crime Commissioner as at 31 March 2023 are set out in the following table and described in detail at sections 3.5 to 3.18:

Total Usable Reserves		31 March 2023 £m
General Fund (Revenue) Reserves	General Reserve	10.563
	Earmarked Reserves	
	Insurance Reserve	3.000
	Operational Systems Reserve	3.400
	Workforce Management Reserve	1.320
	Emergency Services Network (ESN) Reserve	2.600
	Inflationary Risks	4.897
	Reserve to Maintain Investment over the Medium Term and Support Uplift	8.200
	Pay Inflation Reserve	2.021
	Covid Enforcement/Operational Reserve	1.429
	OPCC Innovation Reserve	0.712
	External Funding Reserve	1.022
	NEROCU Reserve	0.379
	Total Earmarked Reserves	28.980
Total General Fund Reserves	39.543	
Capital Reserves	Capital Receipts Reserve	12.800
	Capital Grants Unapplied Reserve	0.386
	Total Capital Reserves	13.186
Total Usable Reserves		52.729

3.5 General Reserve

The Police and Crime Commissioner is legally required to hold reserves. Although any value above nil is legally acceptable, the minimum level agreed in the Commissioners Medium Term Financial Strategy (MTFS) is 2% of the Net Revenue Budget.

A financial risk assessment is undertaken as part of the MTFS and revenue and capital budget setting process, to ensure all risks and uncertainties affecting the Commissioners financial

position are identified. The Commissioner faces a number of significant financial pressures and risks that could affect the position over the medium-term. A full assessment of the likelihood, potential impact and the management controls in place, are published in the Commissioners MTFs 2023/24 to 2026/27. The General Reserve provides the most significant control in place to mitigate financial risk.

The General Reserve is held to manage major unforeseen expenditure, budget pressures and any further loss of Government funding for Northumbria. The Commissioner has an agreed strategy that the level of the General Reserve will be influenced by the balance of risks inherent in the budget and MTFs, the robustness of budget monitoring, past experience of outturn spending, the extent of earmarked reserves and any funding cuts anticipated over the medium term.

As a result, the MTFs 2023/24 to 2026/27 plans to maintain the General Reserve at or above 2.8% of the revenue budget over the medium-term, which is above the 2% minimum set out in the Reserves Strategy.

The expected General Reserve at 31 March 2023 is £10.6m equating to 3.0% of the revenue budget of £355.6m for 2023/24.

The closing General Reserves at 31 March 2027 are estimated to remain at £10.6m equating to 2.8% of the net revenue budget estimated at £373.0m for 2026/27.

3.6 Insurance Reserve

The Insurance Reserve is maintained for potential liabilities and costs which fall onto the Commissioner where it is more economical to keep a reserve than seek specific insurance. Potential liabilities include storm damage, business interruption and claims that would fall within the Commissioner's policy excess limits. The level of this reserve is £3.0m, which represents approximately 0.8% of the approved 2023/24 revenue budget, and it is not anticipated that this will change over the period of the MTFs.

3.7 Operational Systems Reserve

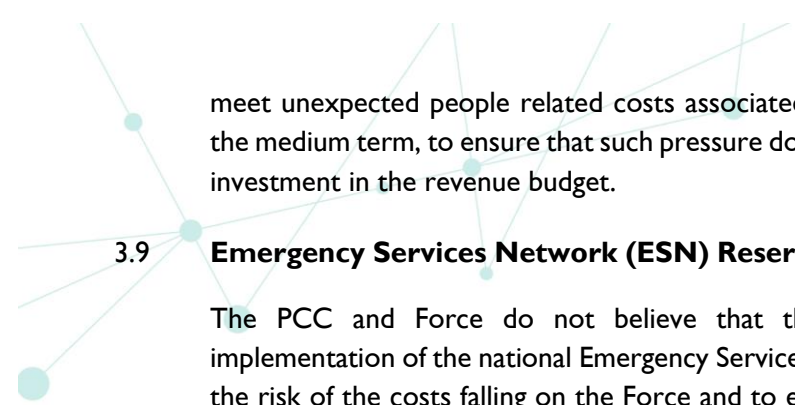

The Operational Systems Reserve will be created at the end of the 2022/23 financial year through a transfer of £3.400m from the Police Pension Scheme Funding Reserve.

The Police Pension Scheme Funding Reserve was established because of the sudden shift in employer's pension costs for police officers from April 2019. Specific grant funding of £3.400m was provided by the Government for 2019/20 with no assurance given for future years, and therefore the Commissioner established an earmarked reserve to provide funding for one year should the government fail to address the significant cost implication in full. Special grant funding has subsequently been confirmed at the same level for each year since and the MTFs revenue projections assume that funding will continue to be provided in some form by Government over the medium term. On that basis the Commissioner feels that this risk is sufficiently mitigated, and the Police Pension Scheme Funding Reserve is no longer required. The full balance of £3.400m has therefore been used to create the Operational Systems Reserve.

The Operational Systems Reserve will provide £3.400m of reserve funding to support the transformational approach to the replacement of operational police systems and is expected to be fully utilised over 2023/24 and 2024/25.

3.8 Workforce Management Reserve

The Workforce Management Reserve was established to manage costs associated with workforce change and has a balance of £1.3m. This reserve will be retained as a backstop to

meet unexpected people related costs associated with any workforce change required over the medium term, to ensure that such pressure does not impact on the sustainability of planned investment in the revenue budget.

3.9 **Emergency Services Network (ESN) Reserve**

The PCC and Force do not believe that the Government will provide funding for implementation of the national Emergency Services Network (ESN) in Northumbria. To avoid the risk of the costs falling on the Force and to ensure no impact on operational policing the implementation will be funded through a mix of prudential borrowing and the use of the ESN reserve. The 2019/20 approved budget included a planned transfer to earmarked reserves to protect against specific risks for Northumbria, of which £2.600m was identified to establish the Emergency Services Network (ESN) Reserve. The total reserve balance will be used in full to manage the cost of ESN implementation expected for Northumbria. However, due to slippage in the National timeline for ESN implementation the majority of the capital costs for ESN delivery in Northumbria are now expected beyond the current medium term in 2027/28 and/or 2028/29.

3.10 **Inflationary Risks**

The Inflationary Risks Reserve was created in 2021/22, from the underspend against the Chief Constable's revenue budget, to manage inflationary risks identified for 2022/23 and future years. This reserve will provide much needed support to manage the impact of the current extraordinary levels of inflation emerging in the economy for energy, fuel and prices. It is expected to be fully utilised over 2023/24 and 2024/25.

3.11 **Reserve to Maintain Investment over the Medium Term and Support Uplift**

Significant investment in policing services for Northumbria residents was approved by the Commissioner in 2020/21 and part of the total funding allocated for that year (£8.2m) was identified to support the investment in future years, to ensure that it would remain sustainable over the medium term. The previous MTFS included plans to utilise the reserve over 3 years 2023/24 to 2025/26. The use of the £8.2m has been reprofiled over 2023/24 to 2026/27 to manage the anticipated funding gap in those years.

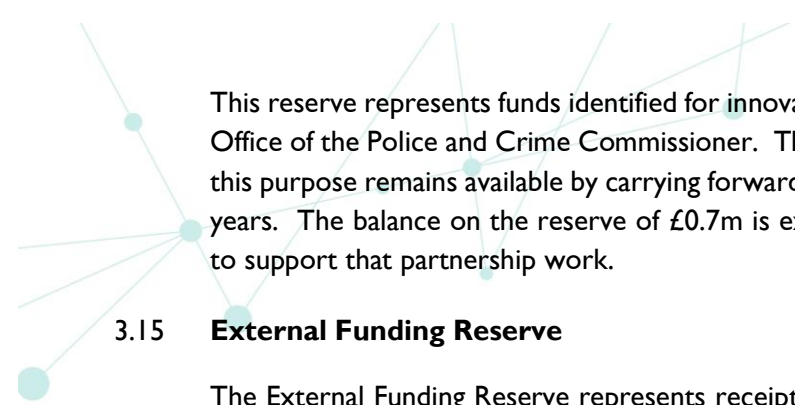

3.12 **Pay Inflation Reserve**

An earmarked reserve estimated at £2.021m will be created at the end of 2022/23 from the underspend against the Commissioner's Capital Financing budget. This reserve will provide some mitigation for the risk that annual pay awards are above the current MTFS estimates, in the case that government provide no additional financial support.

3.13 **Covid Enforcement/Operational Reserve**

An earmarked reserve of £3.1m was established in 2020/21 to meet the costs of Covid enforcement and operational policing in 2021/22. Total expenditure against this reserve to date is £1.7m. The balance on the reserve is forecast at £1.4m at 31 March 2023 and planned expenditure is phased over 2023/24 and 2024/25.

3.14 **OPCC Innovation Reserve**

This reserve represents funds identified for innovative work with partner agencies through the Office of the Police and Crime Commissioner. The reserve ensures that income identified for this purpose remains available by carrying forward balances held for projects between financial years. The balance on the reserve of £0.7m is expected to be utilised over the next 2 years to support that partnership work.

3.15 **External Funding Reserve**

The External Funding Reserve represents receipts of income which are not time limited, and which are carried forward at the year-end to be used in future years, in-line with any terms and conditions. The reserve represents income received from external partners, which is to be used to fund specific activities and policing services. Primarily, external funding reserve balances reflect timing differences only, with income received being utilised in the following financial year.

3.16 **NEROCU Reserve**

The NEROCU reserve comprises the Northumbria share of the North East Regional Organised Crime Unit (NEROCU) reserve. NEROCU (formerly NERSOU) is the three-force collaboration with Durham and Cleveland aimed at tackling serious and organised crime in the region. The NEROCU reserve will be utilised in 2023/24 to support new regional capabilities and projects.

3.17 **Capital Receipts Reserve**

The Capital Receipts Reserve represents a temporary reserve created primarily from the sale proceeds on disposal of the former headquarters site at Ponteland. Capital receipts were received in 3 instalments over the financial years 2018/19 to 2020/21.

Capital receipts available in 2022/23 are £22.744m with planned use of receipts to finance the capital programme of £9.944m. Therefore, the estimated balance as at 31 March 2023 is £12.800m.

The capital financing strategy is to apply capital receipts to fund short-life assets within the capital programme over the MTFS period 2023/24 to 2026/27, to minimise the impact of borrowing costs on the revenue budget in the most cost-effective manner.

Capital receipts will be used prudently across the MTFS period to manage overall capital investment and limit the impact on revenue budgets. Receipts will be applied mainly in 2023/24 to support the concentration of capital spend profiled in that year. The remainder will be applied in 2024/25 and 2025/26 to finance short-life assets (up to 3 years).

Under the current MTFS all capital receipts will be fully utilised by March 2026 as described earlier at section 2.6.

3.18 **Capital Grants Unapplied Reserve**

This represents grant funding provided by the Home Office to forces in relation to specific capital costs for ESN (Emergency Services Network), to be used at the appropriate time within the programme.

4. **Home Office Reserve Categories**

4.1 The Home Office published guidance, 'Police Finance Reserves Guidance' and the 'Financial Management Code of Practice', set out the Government's expectations around the information to be published by Police and Crime Commissioners on their financial reserves strategies. The

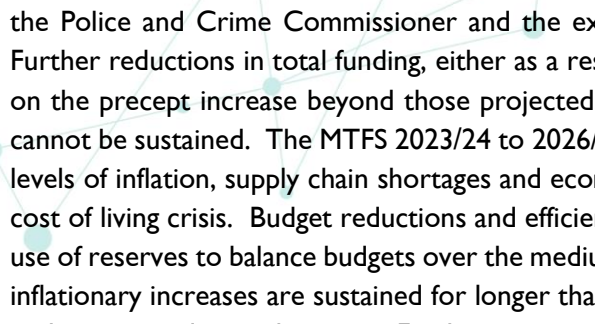

guidance requires reserves information to be presented in three specific categories as provided in the following table:

Reserves Forecast	March 2023 £m	March 2024 £m	March 2025 £m	March 2026 £m	March 2027 £m
Funding for planned expenditure on projects and programmes over the period of the current medium term financial plan.	36.5	18.2	7.3	4.6	3.5
Funding for specific projects and programmes beyond the current planning period.	2.6	2.6	2.6	2.6	2.6
Funding held as a general contingency or resource to meet other expenditure needs held in accordance with sound principles of good financial management	13.6	13.6	13.6	13.6	13.6
Total Usable Reserves	52.7	34.4	23.5	20.8	19.7

- 4.2 In-line with the Commissioners reserves strategy, the forecast set out in the table above reflects the intention to utilise all earmarked reserves held for specific projects and programmes, commencing within the term of the current MTFS, and not to hold unnecessary reserves or balances allocated for purposes/projects commencing beyond the medium term planning horizon.
- 4.3 ***‘Funding for planned expenditure on projects and programmes over the period of the current medium term financial plan’*** – the forecast balance of £3.5m as at 31 March 2027 reflects the Pay Inflation Reserve £2.0m, the Workforce Management Reserve £1.3m and External Funding Reserve £0.2m. Whilst these balances are reflected in full at each year-end, they are substantially (Pay Inflation and Workforce Management) held to mitigate risk of additional financial costs over the medium term and any associated workforce change. The intention remains to either utilise them for their intended purpose, re-purpose those reserves to mitigate new emerging risks, or preferably re-invest in policing once clarity is provided by government on future pay awards and funding beyond the 2023/24 financial year.
- 4.4 ***‘Funding for specific projects and programmes beyond the current planning period’*** – the forecast balance reflects the ESN Reserve of £2.6m. The total reserve balance will be used in full to manage the cost of ESN implementation expected for Northumbria. However, due to slippage in the National timeline for ESN implementation, most of the capital costs for ESN delivery in Northumbria are now expected beyond the current medium term in 2027/28 and/or 2028/29. Preparatory work on the implementation of the national Emergency Services Network (ESN) in Northumbria remains ongoing and therefore this is not considered to be a new project commencing beyond the medium-term.
- 4.5 ***‘Funding held as a general contingency.....in accordance with sound principles of financial management’*** - the forecast balance of £13.6m as at March 2027 represents the General Reserve of £10.6m and the Insurance Reserve of £3.0m.

5. Key Considerations

- 5.1 The highest risk for both the Police and Crime Commissioner and the Force concerns the adequacy of financial resources. This includes the amount of government grant received by

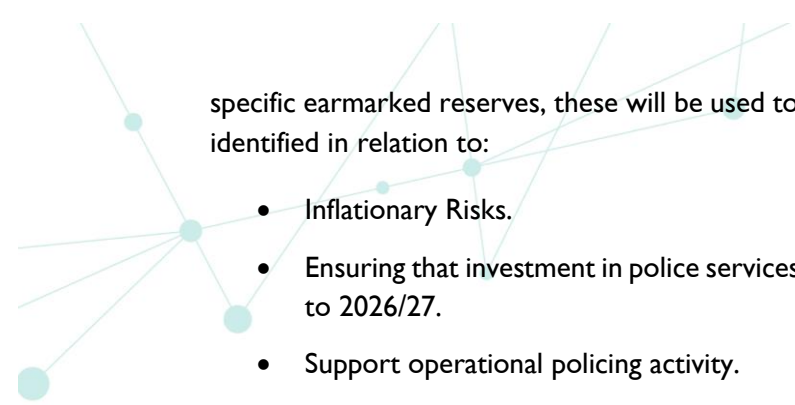

the Police and Crime Commissioner and the expected income generated through precept. Further reductions in total funding, either as a result of government grant cuts or restrictions on the precept increase beyond those projected, will put added pressure on reserves which cannot be sustained. The MTFS 2023/24 to 2026/27 is set against a backdrop of extraordinary levels of inflation, supply chain shortages and economic uncertainty, rising pay awards and the cost of living crisis. Budget reductions and efficiencies are being delivered alongside a planned use of reserves to balance budgets over the medium term. However, there remains a risk that inflationary increases are sustained for longer than anticipated and actual future pressures are underestimated or unknown. Further savings will need to be delivered to meet any such pressure as resilience to meet unexpected demand through reserves is already limited.

- 5.2 The Commissioners capital programme and capital financing plans include a finite level of capital receipts of £12.800m available to finance capital investment over the MTFS period. Once capital receipts are exhausted the annual capital programme will be mainly funded through prudential borrowing, as the capital grant from government was reduced to nil for 2022/23 and 2023/24, with no expectation that funding will be reinstated for future years. This will limit the capital programme to what is affordable in revenue terms for the minimum repayment of borrowing (MRP) and annual interest costs.
- 5.3 The Commissioners reserves strategy provides key principles which support the Commissioners Medium Term Financial Strategy (MTFS). The MTFS 2023/24 to 2026/27 does deliver a balanced budget and sets out how a sustainable financial position can be achieved over the four year period.
- 5.4 The MTFS is predicated on many key assumptions around resource requirements, future costs and the level of total funding. Due to the challenging economic and financial climate and limited funding information available to Northumbria Police beyond the current settlement year, there remains a level of risk throughout the period of the MTFS and the financial context for Northumbria Police remains extremely challenging

6 Conclusions

- 6.1 It is the opinion of the Chief Finance Officer that the current processes for the management of the Commissioners reserves are appropriate. This opinion takes into account:
- The requirement for the Police and Crime Commissioner to have overall control of all reserves (as the Chief Constable is not permitted to hold usable reserves).
 - A key Medium Term Financial Strategy (MTFS) principle to maintain the General Reserve at a minimum of 2.0% of net revenue budget. In practice, this level is maintained at or above 2.8% of net revenue budget within the MTFS 2023/24 to 2026/27 to provide a financial buffer.
 - The creation and use of earmarked reserves as well as the use of the General Reserve, is approved in advance via the budget and MTFS, set annually by 31 March. The approval for use of all reserves is further evidenced each year to External Audit as part of the year-end outturn report and approved use of reserves.
 - The information, reserves position and key considerations set out in this report.
- 6.2 It is the opinion of the Chief Finance Officer that the estimated level of reserves held at 31 March 2023 is appropriate. However, whilst the current MTFS plan includes a number of

specific earmarked reserves, these will be used to manage specific financial pressures and risks identified in relation to:

- Inflationary Risks.
- Ensuring that investment in police services can be sustained across the full MTFS period to 2026/27.
- Support operational policing activity.
- Additional costs of employee pay awards above those levels forecast in the 2023/24 budget and MTFS 2023/24 to 2026/27.
- Costs associated with workforce change.
- Planned financing of the capital programme across 2023/24 through to 2026/27.
- Implementation of the national Emergency Services Network (ESN) in Northumbria.

6.3 The use of reserves to meet future funding shortfalls and other pressures (such as sustained additional/above inflation annual pay increases) is unsustainable and general reserves are approaching the minimum level outlined within the MTFS.
