

The information provided in this document highlights all funding that has been awarded by the Police and Crime Commissioner for Northumbria during 2025-26.

Please note that this document will be updated throughout the year if/when further funding is provided.

Funding has been split into the following funding streams which are:

- The **Supporting Victims Programme (SVP) and VAWG Fund** strengthen the overall offer of support to victims of crime in Northumbria, build capacity and maximise potential of the specialist services available to support victims to cope and recover. Our vision is to ensure that victims of crime feel confident to seek help and when they do, they are provided with a choice of high-quality support tailored to meet their individual needs. The key themes within the Supporting Victims Programme are domestic abuse, sexual violence and abuse, young people and child victims, victims of stalking and harassment, victims of hate crime, victims of violent crime (violence against the person), victims with mental health needs and victims with other vulnerabilities (including exploitation). The VAWG Fund aims to increase the provision of specialist support services for victims of domestic abuse and sexual violence in Northumbria, including the provision of Independent Sexual Violence Advisers (ISVA) and Independent Domestic Violence Advisors (IDVA).
- Northumbria PCC bid for and was successful in receiving continuation funding from the **NHS England Sexual Assault and Abuse (SAAS) Fund** to strengthen the provision of services for child sexual abuse victims in Northumbria.
- The **Children Affected by Domestic Abuse (CADA) Fund** aims to support and enhance the provision of therapeutic services for children and young people affected by domestic abuse. Funding has continued to be awarded from the Home Office to fund the following:
 - Delivery of 1:1 and group-based therapeutic services for C&YP alongside collaborative work focused on the individual, relational and contextual factors affecting their readiness to engage.
 - Delivery of parental engagement interventions focused on enhancing the non-offending parent's readiness for and ability to support their child's engagement with therapeutic services.
 - Delivery of joint interventions for children and young people and the non-offending parent, including those that address the impact of domestic abuse on their relationship/attachment.
- Northumbria was successful in receiving continuation funding from the Home Office for **Domestic Abuse Specialists in Control Rooms (Raneem's Law)**, which funds domestic abuse specialists in 999 control rooms in relation to the Government's manifesto commitment to 'Raneem's Law'. The domestic abuse specialists use their subject expertise to improve the police response to domestic abuse by, for example, providing advice on risk assessments, providing feedback to call handlers on victim engagement or facilitating referrals to local services.

- Further funding from the Home Office’s **Hotspot Response Fund** has been awarded to Northumbria for Project Shield, which delivers a strong, focused approach to deterring and tackling ASB across transport networks and communities suffering high levels of ASB.
- The **Commissioner’s Community Fund** has been designed to empower local people and support local projects and initiatives that reduce/prevent crime and ASB. Full details of Commissioner’s Community Fund grants can be found [here](#).
- **Full details of all Violence Reduction Unit grants can be found [here](#).**
